

HITO 2014

DETAILS OF THE HARVEST

An extraordinary year, with a very rainy winter and a spring marked by high temperatures, favouring the vegetative growth of the vines. During the summer the temperature was slightly above average and rainfall was low, but thanks to the cool nights the vines did not suffer stress which greatly favoured a complete aromatic and polyphenolic maturity.

TASTING NOTES

This HITO 2014 presents itself with a very intense, bright cherry-red color, showing the personality of this new Hito in an extraordinary vintage such as this 2014.

The nose is dominated overall with primary aromas from the black fruits of Tinto Fino, appearing with a lively freshness throughout the tasting, whilst the tertiary aromas of aging take second place, bringing subtle notes of complexity from the background. On the palate the balance between the great body of the wine and the gentleness of its tannins is highlighted, with a long and persistent finish.

FACT FILE
